

Summer Studies in New Zealand 2017

June 5 - 30, 2017

Embark on a journey to deepen your understanding of the preservation of our natural environment while broadening your intercultural awareness by discovering the unique culture of the first people of southern New Zealand – a tribe of Māori known as Kai Tahu.

Earn up to 2.0 GNED credits or 2.0 lower level degree breadth elective credits from Humber by studying:

- > Sustainability and Environmental Science
- > 'Te Ao Māori – The Māori World View

* Subject to Approval

Sustainability and Environmental Science

Take the opportunity to engage with the natural environment and learn the skills to make a real difference to the future of our planet.

New Zealand's stunning mountains, forests and waterways are the perfect setting for a life-changing overseas experience. Enhance your awareness and deepen your knowledge of one of the biggest global issues facing the modern world – sustainability.

The outdoors will become your classroom as you explore sustainability issues in one of New Zealand's most diverse wildlife ecosystems and the site of a world-leading ecosanctuary - Dunedin and its surrounding areas. Awareness of sustainability issues and the opportunity to actively participate in ecological restoration form the basis of this experience. The course culminates with a 'journey' – an expedition through some of New Zealand's most beautiful and untouched natural terrain.

International campus in New Zealand's largest city.

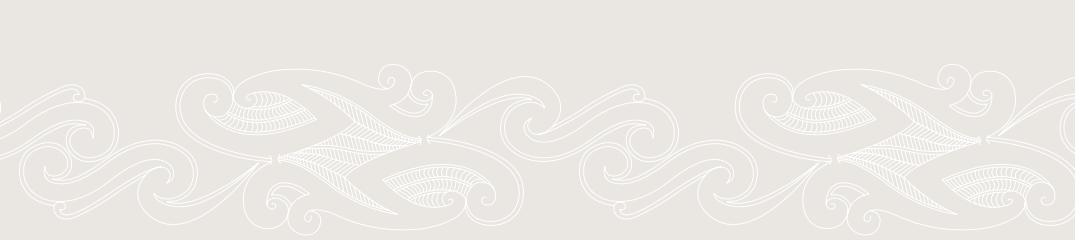

Auckland

Study among some of the most incredible landscapes in the world!

Central Otago

Dunedin
Enjoy the lifestyle of a fun, beautiful student city!

'Te Ao Māori – The Māori World View'

Our world is a global village made up of numerous ethnic groups and diverse communities all co-existing in increasingly less-defined geographic regions. As individuals, we are increasingly aware of difference but can be uncertain of how to understand or co-exist alongside it. This can be particularly true when interacting with First Nation peoples. First Nation peoples occupy a unique space in any global village as their cultural practices, knowledge and understanding of the world do not exist in any other place.

Embark on a course that looks at the Kai Tahu tribe's relationship with the Crown through the 'The Treaty of Waitangi' - the founding document of New Zealand. You'll also have the opportunity to engage with unique cultural experiences such as staying on a Marae, the traditional meeting house of the Māori people.

Learn about the conditions that created contemporary New Zealand society and take advantage of this opportunity to examine and reflect on your own cultural context, and the relationships in the places we share.

Program Fee: \$3,500 CAD per person, paid directly to Otago Polytechnic*
Canadian students are eligible for a \$1,000 CAD bursary from Humber College!

Included:

- > Successful completion of this program is the equivalent of up to 2.0 GNED or 2.0 degree breadth elective credits from Liberal Arts and Science.
