TRANSFER CREDIT

Upon admission, you may qualify for credits toward your Humber program based on previous postsecondary education. ASSESSMENT AND PLACEMENT TESTING

As a leader in polytechnic education, Humber includes liberal arts and sciences courses in the curriculum of most programs. To place you in the communications and math courses best suited to your needs, we may ask you to take a placement test.

Q: When do I find out if I have to take a placement test?

A: Visit Humber's Testing Services to see if your program requires you to complete a placement test. You may also go here to book your placement test and access how-to guides: humber.ca/student-life/testing-services

Q: Will I have to write the test if I'm entering a postgraduate certificate or bachelor's degree program?

A: No. It is not required.

Q: What if I have already taken the test at Humber?

A: If you have already taken the test on-campus at Humber as part of the application process, you do not need to repeat it. If you have not completed on-campus placement testing, and your timetable includes courses requesting a test, please contact +1.416.675.6622 North Campus ext.4712 or Lakeshore Campus ext.3228 to make testing arrangements.

Q: When do I have to take the test?

A: We finalize your timetable only after the assessment is completed, so it is a good idea to write the test as soon as possible.

Q: Where do I take the placement test?

A: Students are able to take the placement test online from their home or they can arrange to take the placement test at a Humber Test Centre.

Note: There is a late testing fee charged to students who take the test during the week of orientation. Detailed information will be sent at a later date.

Q: What happens if I don't do well on the test?

A: A low score does not affect your offer of admission. However, we may require you to complete supplemental courses as part of your program.

Q: What kinds of questions are asked on the test?

A: The communications assessment is typically a short writing assignment. Sample math questions may be viewed on our website. We encourage you to prepare for the test by reviewing this online resource. humber.ca/student-life/testing-services/services-students/admissions-placement-testing
